

2016 TARGET CHALLENGE

PEDIATRIC REHABILITATION

NEW ENGLAND PEDIATRIC DEVICE CONSORTIUM

Opportunity Overview:

NEPDC and the Center for the Translation of Rehabilitation of Engineering Advances and Technology (TREAT) are pleased to announce pediatric rehabilitation as the focus area for the 2016 Target Challenge.

NEPDC and TREAT, in partnership with the Pediatric Orthopaedic Society of North America (POSNA) and the Foundation for Physical Therapy, invite grant proposals for the development of novel technology and improvements to existing technologies with clear potential for commercialization that can be used for pediatric rehabilitation.

Key Dates:

Abstract (open submission):	July 8
Application (invite only):	July 22
Notification of Finalists:	August 16
Notification of Award:	Mid-September
